

Calculating Perimeter of a Room

In order to request the correct amount of baseboard and crown molding, you must find the perimeter of the bedroom and closet shown below. Use the dimensions shown.

1. Find the TOTAL perimeter of the bedroom and the closet.
 - a. Bedroom: _____ feet
 - b. Closet: _____ feet
 - c. Total: _____ feet

2. Determine the number of pieces of baseboard and crown molding required if each comes in 16-foot sections.
 - a. _____ pieces of baseboard
 - b. _____ pieces of crown molding

3. Add 10% to the order for errors/waste.
 - a. _____ pieces of baseboard
 - b. _____ pieces of crown molding
