DESIGN-BUILD

- The Design-Build delivery method is quite different from the traditional design-bid-build delivery of construction contracts. However, this method can provide the owner many benefits. These advantages include:
 - Single Point of Contact and Responsibility.
 - Improved Project Quality.
 - Early Guaranteed Costs.
 - Cost Savings.
 - Improved Risk Management.

IF CONSTRUCTION IS THE QUESTION,
CHRIS WOODS IS THE ANSWER.

- We have established our reputation as a quality contractor by honoring our commitments, on time and within budget...every time. If a company's reputation is based upon satisfied customers, our repeat business verifies the strength of our reputation.

ABOUT CHRIS WOODS

SINCE 1985, CHRIS WOODS CONSTRUCTION HAS BUILT LONG-TERM RELATIONSHIPS WITH OUR CUSTOMERS. WE LISTEN TO OUR CUSTOMERS NEEDS AND DELIVER QUALITY CONSTRUCTION EVERY TIME. WE HAVE BUILT OUR BUSINESS AND REPUTATION ON THE QUALITY OF OUR WORK AND RELIABILITY OF OUR WORD.

- **Reputation**

- We have established our reputation as a quality contractor by honoring our commitments, on time and within budget...every time. If a company's reputation is based upon satisfied customers, our repeat business verifies the strength of our reputation.

- **Commitment**

- Our commitment to you goes far beyond the team that is directly working on your construction project. Our entire company is committed to your complete satisfaction from start to finish...and beyond.

- **Responsibility**

- At Chris Woods Construction, we specialize in quality construction. We are your single source of responsibility for cost control, quality assurance, schedule adherence and finished product performance.

- **Track Record**

- We are easy to work with, and maintain the highest level of quality construction. Most of all, we honor our commitments and strive to exceed your expectations.

- **Accessibility**

- To address any questions or concerns the Chris Woods management team is available to you at all times, day or night, including weekends.

- **Value Engineering**

- By evaluating and utilizing the appropriate construction materials, systems and methods, we can provide you with a superior product that fits your individual needs, at the best possible cost.

- **Team-Oriented**

- At Chris Woods Construction, we develop and maintain partnerships with our clients throughout the construction process. Your input results in more accurate estimates of costs in your project. Working in partnership with you not only optimizes quality and cost control during the entire construction process, it also eliminates costly delays, redesign time and regrettable decisions.
